

DEVIL'S THUMB RANCH

How to get away.

Enjoy a mountain vacation of a lifetime at Devil's Thumb Ranch. Just 90 minutes from Denver in breathtaking Grand County, Devil's Thumb Ranch provides everything you could want for your next mountain getaway.

A Commitment to Sustainability

When you come to Devil's Thumb Ranch, you'll find one of the highest levels of environmental sustainability in the country. In addition to using organic ingredients in our restaurants and natural botanical spa treatments, we use reclaimed wood for many of the structures on the Ranch. The swimming pool, hot tubs and buildings are heated with geothermal heat from the earth. We encourage guests to reuse towels and bedding during their stay and have low-flow plumbing fixtures. We've been recognized by the EPA and many publications for our efforts – but we don't do it for the attention. We do it because it's the right thing to do. In essence, we've become one with the land. We're sure you'll feel the same way when you take your next vacation here.

Unparalleled Accommodations

Walk into our 52-room parkitecture-style lodge or one of our 16 private, ridge top cabins and experience the purest form of relaxation. Our lodge makes you feel at home with amenities like fluffy bathrobes, soft down pillows and cozy comforters, while our cabins tuck you in at night with warm fireplaces, geothermally-heated floors and cushy European mattresses. You'll rest easy knowing that you've chosen a unique place to stay where you can truly say, "It doesn't get any better than this."

Plenty to Do...or Do Nothing at All

There aren't many spots where you can stay busy exploring or enjoy doing nothing so much. Whether you're fly fishing or mountain biking with an expert guide, horseback riding through the woods or cross-country skiing at our Nordic Center voted "most scenic" in North America, we're sure to have something for you. After an adventure-filled day, unwind by the year-round outdoor swimming pool and hot tub with breathtaking views or indulge with a soothing botanical treatment at Ranch Creek Spa before dinner. Of course you can also skip all the activities and soak up the mountain sunshine with a high-altitude nap.

5,000 Acres of Raw Colorado

Just 90 minutes from Denver International Airport, you'll find unparalleled comfort and solitude at Devil's Thumb Ranch. Convenient to Winter Park Resort, Rocky Mountain National Park and Grand Lake, there's loads to explore while treating yourself to amazing sights, tastes, sounds and adventures. Spectacular views of the Continental Divide are here to welcome you. And once you've arrived, you'll realize you made a great choice for a getaway. Such a great choice that you'll start planning when you're coming back to visit us before you ever leave.

Mountain-Style Dining

Ranch guests, locals and passersby alike feast on a Rocky Mountain menu full of incredible taste. In both Ranch House Restaurant & Saloon and Heck's Tavern, you can enjoy local and sustainable ingredients and hormone-free meats. The menu changes frequently so we can serve you fresh, seasonal offerings. Our wine menu offers more than 400 domestic and international wines that are sure to please. Just looking for a latte and a sweet treat? Stop in Hallowed Grounds where the baristas are as friendly as the meadow is wide.
